ORIGINALLY FROM THE SOURCE

Shallots

ORIGIN

Indonesian Red Onion (Shallots). West-Sumatra Shallots, Solok Regency, West Sumatra is known as a priority for developing shallot production outside Java, to meet domestic and export needs of onions in Indonesia. If you pay attention to the shallots in Solok, the size of onions is much bigger, the smell is more fragrant, and the color is more attractive. Bright and fresh red. At a glance it looks like a red onion from India, and one clump of up to 7 seeds with super size.

BENEFIT FOR BODY

1. **Prevent Cancer** quercetin substances onions are able to prevent the growth of lung cancer cells, prostate cancer, ovarian cancer, colon cancer, and endometrial cancer.

2. **Lowering Blood Pressure**
3. **Helps Normalize Blood Sugar Levels**

4. **Control Diabetes** The flavonoids in onions help treat many diseases, one of which is diabetes

5. **Healthy Heart**
